This table represents all relationships of evidence review committee members with industry and other entities that were reported by authors, including those not deemed to be relevant to this document, at the time this document was under development. The table does not necessarily reflect relationships with industry at the time of publication. A person is deemed to have a significant interest in a business if the interest represents ownership of ≥5% of the voting stock or share of the business entity, or ownership of ≥\$5,000 of the fair market value of the business entity; or if funds received by the person from the business entity exceed 5% of the person’s gross income for the previous year. Relationships that exist with no financial benefit are also included for the purpose of transparency. Relationships in this table are modest unless otherwise noted. Please refer to <http://www.acc.org/guidelines/about-guidelines-and-clinical-documents/relationships-with-industry-policy> for definitions of disclosure categories or additional information about the ACC/AHA Disclosure Policy for Evidence Review Committee

\*Significant relationship.

†No financial benefit.

‡Dr. Gautam is a clinical trial enroller for the EMANATE trial funded by Pfizer. All appropriate firewalls are in place so this relationship was determined not relevant.

§Dr. Sorajja is a clinical trial enroller for the UNTOUCHED trial funded by Boston Scientific. All appropriate firewalls are in place so this relationship was determined not relevant.

ACC indicates American College of Cardiology; AHA, American Heart Association; DSMB, data safety monitoring board; HRS, Heart Rhythm Society; NIH, National Institutes of Health; and NHLBI, National Heart, Lung, and Blood Institute.
