This table represents all relationships of committee members with industry and other entities that were reported by authors, including those not deemed to be relevant to this document, at the time this document was under development. The table does not necessarily reflect relationships with industry at the time of publication. A person is deemed to have a significant interest in a business if the interest represents ownership of ≥5% of the voting stock or share of the business entity, or ownership of ≥\$5,000 of the fair market value of the business entity; or if funds received by the person from the business entity exceed 5% of the person's gross income for the previous year. Relationships that exist with no financial benefit are also included for the purpose of transparency. Relationships in this table are modest unless otherwise noted. Please refer to <http://www.acc.org/guidelines/about-guidelines-and-clinicaldocuments/relationships-with-industry-policy> for definitions of disclosure categories or additional information about the ACC/AHA Disclosure Policy for Writing Committees.

* No financial benefit.

† Significant relationship.

‡ Relationship with this company is limited to enrolling patients in clinical trials. This disclosure was entered under the Clinical Trial Enroller category in the ACC's disclosure system. To appear in this category, the author acknowledges that there is no direct or institutional relationship with the trial sponsor as defined in the ACC/AHA Disclosure Policy for Writing Committees.

ACC=American College of Cardiology; AHA=American Heart Association; CMS=The Centers for Medicare & Medicaid Services; CT=cardiothoracic; DAPT=dual antiplatelet therapy; DCRI=Duke Clinical Research Institute; FDA=Food and Drug Administration; MedCAC=Medicare Evidence Development & Coverage Advisory Committee; NHLBI= National Heart, Lung, and Blood Institute; NIH=National Institutes of Health; PCI=percutaneous coronary intervention; PCORI= Patient-Centered Outcomes Research Institute; QA/PI=quality assurance/performance improvement; SCAI=Society for Cardiac Angiography and Interventions.
